For Immediate Release

Proxicast to Showcase Video Surveillance & Remote Monitoring Over 3G/4G Cellular at ASIS 2009 in Anaheim

Pittsburgh, PA. (September 3, 2009) – Proxicast (www.proxicast.com), a leading manufacturer of innovative commercial-grade secure wireless communications equipment will be participating in the ASIS 2009 Exhibition in Anaheim California September 21 through 23 at the Anaheim Convention Center. Proxicast will highlight secure video and remote monitoring applications for its LAN-Cell and Cell-PAK family of 3G/4G cellular routers. Organizations seeking a highly flexible and secure communications solution for remote video surveillance and data collection applications are invited to visit Proxicast at Booth #473. Free Exhibit-Only passes are available from the ASIS 2009 website (<http://www.asis2009.org/freepass>) or by contacting Proxicast.

ASIS 2009 is the security industry's leading event and is sponsored by ASIS International, the largest organization in the world for security management professionals. Some 850 exhibiting companies will showcase the most innovative technologies, products and services on the market today. More than 22,000 security, business and government professionals from more than 90 countries are expected to attend ASIS 2009.

The LAN-Cell 2 is a rugged commercial-grade 3G/4G cellular router with enterprise-class routing, security and VPN features that allows multiple PC's, laptops, webcams, IP video cameras, DVRs (Digital Video Recorders) and other Ethernet-based devices to simultaneously share a single cellular data account for primary or backup connectivity. Every LAN-Cell 2 includes 4 LAN, 1 WAN and 1 Serial ports along with an integrated 802.11 a/b/g Wi-Fi access point, full VPN end-point capabilities, military-grade encryption and X.509 PKI certificate support.

The LAN-Cell 2 3G/4G router supports all major worldwide cellular (wireless) carriers and standards including Verizon Wireless, Sprint PCS, Alltel Wireless, AT&T Mobility, T-Mobile, Rogers, Telus, Bell Mobility, Telcel, Orange, Vodafone, O2, Telstra and others. The LAN-Cell 2 3G cellular router is available for immediate delivery worldwide directly from Proxicast and through select resellers.

The Cell-PAK is a rugged, self-contained, battery-powered, portable Wi-Fi HotSpot with built-in 3G/4G cellular Internet access. Its impact and water-resistant MIL-spec rated case and on-board power pack are designed for prolonged operation in harsh environments. The Cell-PAK platform features an intelligent power management system that provides 10+ hours of continuous battery operation on a single charge. It operates on 12 VDC and can be powered by AC, DC, vehicle, generator or solar power and recharges while in operation. Cell-PAK is specifically designed for the award-winning Proxicast LAN-Cell 2 mobile 3G/4G cellular router.

About Proxicast

Proxicast designs and manufactures innovative, commercial-grade, secure wireless communications equipment that enables customers to increase productivity, enhance security, improve operational efficiency and reduce on-going communication costs. Proxicast focuses on wireless equipment for use with all major worldwide cellular standards including (CDMA) EV-DO Rev-A, EV-DO Rev-0, 1xRTT (1x) and (GSM) HSUPA, HSDPA, UMTS, W-CDMA, EDGE and GPRS. Some cellular carriers include including Verizon Wireless, Sprint PCS, Alltel Wireless, AT&T Mobility (Cingular), T-Mobile, Rogers,

Telus, Bell Mobility, Telcel, Orange, Vodafone, O2, Telstra and others. In 2003, Proxicast introduced the revolutionary and award winning, LAN-Cell Mobile Gateway, the original cellular router, which is in use at thousands of mobile and stationary application sites around the world. Proxicast is based north of Pittsburgh, Pennsylvania and is a privately-held corporation founded in 2000.

About ASIS International

ASIS International is the preeminent organization for security professionals, with more than 37,000 members worldwide. Founded in 1955, ASIS is dedicated to increasing the effectiveness and productivity of security professionals by developing educational programs and materials that address broad security interests, such as the ASIS Annual Seminar and Exhibits, as well as specific security topics. ASIS also advocates the role and value of the security management profession to business, the media, government entities and the public. By providing members and the security community with access to a full range of programs and services, and by publishing the industry's No. 1 magazine—[Security Management](#)—ASIS leads the way for advanced and improved security performance.
