

ANT-127-002

10 dBi Omni-Directional 3G/4G/LTE Fiberglass Antenna

Applications

- 3G/4G/LTE Routers & Modems
- Cellular Amplifiers
- Signal Challenged Locations Requiring High Gain Omni-Directional Antennas
- Pole & Wall Mount Options

Product Features

- Compatible with most Cellular Modems/Routers
- Compatible with all 3G/4G/LTE Networks
- Integrated N Female Connector
- No Ground Plane Required
- White Polyurethane Coated Fiberglass
- 26 inches Tall

Ordering Information

Part No.	Description
ANT-127-002	Proxicast High Gain 10 dBi Universal Wide-Band 3G/4G/LTE Omni-Directional Outdoor Pole/Wall Mount Fiberglass Antenna

General Description

Proxicast's 26 inch easy-to-install permanent mount omni-directional antenna improves transmit and receive signals for all 3G and 4G/LTE, xLTE, AWS frequencies on Verizon, AT&T, Sprint, T-Mobile, US Cellular, Bell Mobility, Rogers, Telus, Sasktel, Telcel, Movistar, Digicel and many other cellular operators worldwide.

This antenna is also suitable for unlicensed 900 MHz (ISM) radio applications and 2.4 GHz WiFi / ISM band. It also covers the GPS frequency (1575 MHz) and can be used as a passive GPS antenna or as a multiplexed cellular + GPS antenna.

The omni-directional design provides high gain without the cellular tower location and alignment hassles of directional antennas.

Its gloss white finish blends into any environment and makes it ideal for many outdoor applications, including building rooftops, utility poles, surveillance trailers, well sites, remote telemetry units, meters, homes and offices.

With the appropriate adapter cable (not included), this antenna is compatible with USB cellular modems and Mi-Fi Hotspots, external 3G/4G cellular modems, routers and signal amplifiers from companies such as CalAmp, Cisco, Cradlepoint, Digi, MoFi, Netgear, Novatel, Pepwave, Proxicast, Sierra Wireless, SureCall, weBoost/Wilson and ZTE.

For MIMO applications use 2 identical antennas. Proxicast's XBOOM Cross-Over Bracket (ANT-800-XB1) makes it easy to mount 2 antennas on a single vertical mast.

ANT-127-002

10 dBi Omni-Directional 3G/4G/LTE Fiberglass Antenna

Electrical Specifications

Parameter	Rating
Frequency Range	700-2700 MHz includes all 2G, 3G, 4G, LTE Bands used worldwide and GPS, 900MHz and 2.4 GHz WiFi bands
Peak Gain	10 dBi
VSWR	≤ 2.5:1
Input Impedance	50 Ohm
Polarization	Vertical
Max Input Power	100 W
Ground Plane	Not Required

Mechanical Specifications

Parameter	Rating
Connector Type	N Female (jack) integrated into base of antenna
Length	25.6 in / 650 mm with bracket: 27.5 in / 700 mm
Diameter	.98 in / 25 mm
Weight	1.3 lbs / 0.59 kg
Materials	UV stabilized polyurethane coated fiberglass, stainless, steel, aluminum - RoHS compliant
Antenna Color	Gloss White
Operating Temperature	-50°C to +70°C
Mounting	Pole/Wall Mount via integrated bracket (2.0" dia. U-bolt included)

Operation of this device outside the parameter ranges given above may cause permanent damage.

Installation Instructions

- Orient antenna vertically
- Position away from:
 - CRT/TVs
 - Lighting fixtures & motors
 - Other antennas & wireless devices
 - Low-E or tinted/coated windows
 - Large vertical metal or concrete objects
- Mount as high as possible
- Weather seal outdoor coax connections
- Fully tighten coax connector to antenna connector
- Install in-line lightning protection if required by local building, fire, insurance or safety codes
- Use 2 identical antennas if modem supports diversity or MIMO
